

Grateful for M.V. Hospital care

May 2, 2018

To the Editor:

I was recently diagnosed to have my hip replaced. So I had surgery at Martha's Vineyard Hospital. I want to thank Dr. Halsey and crew. I came out of surgery and was walking the same day.

But not only do I want to thank the doctor and crew, but everyone else — the nurses, the woman who cleaned my room every day. The food was great. My thanks to the complete staff of angels working under the roof of M.V. Hospital.

I am so grateful. Six weeks later, I feel great. I can't imagine better care anywhere on the planet.
